

Grow your wealth.

Investing well starts with a smart strategy.

Savvy advice to future-proof your investment property decisions.

With residential property among the most popular investment asset classes in Australia today, coming out on top can be as simple as selecting the right one. However, like all assets, it's important to remember that every property is unique and performs differently.

At PropertyDuo, we partner with investors – both new and experienced – to help you source, select and secure assets to help grow your wealth. Our independent advice and reliable data will help you make smart decisions, while saving time, managing risk and maximising outcomes.

PropertyDuo simplifies the process for you.

Search We cast our net far and wide to thoroughly search for on and off-market opportunities that meet your investment strategy and budget.

Inspect You're already busy and getting to all the open for inspections is time consuming. We'll keep our professional eyes peeled at inspections to identify properties with the greatest potential to meet your requirements.

Analyse Our experts analyse a number of factors, including historical performance, body corporate records, zoning restrictions and lease covenants to curate a shortlist based on your requirements. Thorough due diligence ensures risks are identified and managed.

Negotiate With your budget firmly in mind, our experts will bid at auction or negotiate a purchase on your behalf, putting you in prime position.

Post-purchase To save you more time we manage the settlement and other aspects of the transaction, including property manager selection and rental reviews, as required.
